II. ELIGIBILITY

Singles: Excel and Well-Balanced Events:

- Skaters must meet at least the minimum singles test requirements for the event’s level. A skater’s singles test level may be higher than the minimum requirement.
 - o Skate Up: skaters may skate up one level higher than their minimum test requirement allows.
- Skaters may not register for an event level lower than allowed by their competitive floor. An athlete’s competitive floor is set by one of the following scenarios:
 - o If an athlete has a paid EMS series application for the NQS series, the event level registered for in the most recent NQS will become the lowest level they may compete at in any U.S. Figure Skating sanctioned event.
 - o If an athlete has a paid EMS series application for the Excel Series, the event level registered for in the most recent Excel series will become the lowest level they may compete in any Excel event. For Well-Balanced and Specialty events the skater will be permitted to register at one level lower than the “floor” set by their excel series entry.
 - o If an athlete has never had a paid EMS series application in the NQS or Excel series, the athlete may select their level based on their goals and technical skills as long as the minimum test requirements are met.
- Skaters are not permitted to enter an Excel free skate and a Well-Balanced free skate event at the same competition (example: Juvenile Girls Free Skate and Juvenile Girls Excel Free Skate). However, they are permitted to enter an Excel and a Well-Balanced event of different types such as a short program (if stand-alone event option), specialty or showcase events (example: Intermediate Women Short Program and Intermediate Women Excel Free Skate).
- For more details about establishing event levels, refer to information sheet [HERE](#) or email events@usfigureskating.org.

All other singles and partner events (such as Adults, Pairs, Ice Dance):

Skaters must meet the minimum test requirements for the events level, but not exceed the maximum permissible test requirement.

Showcase Events:

Theatrical lighting in darkened arena will be used for qualifying level showcase events. Shows will run continuously with 3 minute warmups only behind curtain. Skaters must compete at their test level or one level higher, per the [2023/2024 Showcase Guidelines](#).

Compete USA & Aspire skaters please refer to the U.S. Figure Skating [Compete USA Showcase Guidelines](#) for events, elements, qualifications, program lengths and descriptions. Compete USA & Aspire level showcase events may be held on standard full ice and lights if schedule necessitates at the discretion of the referee.

Synchronized Skating:

For synchronized skating teams, this competition is not requiring that skating skills test requirements for the team’s level be met, except for the maximum allowed at the Compete USA levels (Snowplow Sam Synchro and Aspire levels).
